

CC-1250 CASING WASH FOR SYNTHETIC MUDS

Description

CC-1250 is a select, proprietary blend of water-soluble surfactants specifically formulated for the removal of synthetic or diesel mud from workstring, casing, riser, and surface equipment prior to completion operations.

Typical Physical Properties

Appearance	Amber Liquid
Odor	Characteristic
Specific Gravity @ 60°F	1.02 – 1.04
Density (lbs /gallon)	8.59
Flash Point	> 201°F
pH	7.3 – 7.6

Advantages

- Efficiently removes synthetic mud, dispersing the oil and oil-coated solids into small individual droplets which do not commingle or agglomerate.
- Rinses thoroughly and completely, leaving a water wet surface after displacing with no oily film on metal surfaces.
- Biodegradable, non-toxic non-hazardous, non-flammable and non-corrosive.
- When used as directed and tested according to the U.S. Environmental Protection Agency's Static Sheen Test, CC-1250 does not form or create sheen on the surface of receiving waters.

Application

Please consult a Rig-Chem Representative for an engineered displacement procedure.

Handling

Improper handling of this product can be injurious to workers. Observe all safety precautions shown on the label and in the Material Safety Data Sheet.
